

prExample/prExampleMainWindow.hpp

```
graph BT; A[prExample/main.cpp] --> C[prExample/prExampleMainWindow.hpp]; B[prExample/prExampleMainWindow.cpp] --> C;
```

The diagram illustrates a C++ project structure. At the top is a header file, `prExample/prExampleMainWindow.hpp`, which is shaded gray. Below it are two source files: `prExample/main.cpp` on the left and `prExample/prExampleMainWindow.cpp` on the right. Both source files have blue arrows pointing to the header file, indicating that they include it.

prExample/main.cpp
